

SHIELDWRITE™ BULLET RESISTANT WHITEBOARDS

ShieldWrite moves quickly and easily wherever you need to go – even in an emergency. Uniquely sized, it delivers greater freedom to communicate, collaborate and problem-solve – all with an added layer of security. Hidden inside ShieldWrite is a ballistic-grade core capable of withstanding semi-automatic rifle or handgun bullets. Designed with the FBI’s “Run, Hide, Fight” guidance in mind, you can push or pull to create a protective screen for escape, block a doorway or window, or group together to block a hallway or access point. ShieldWrite helps you add a layer of protection to help keep students, employees, and visitors safe in your space.

- **DEPLOYS INSTANTLY.** When seconds matter – acts as a highly maneuverable, protective shield.
- **BULLET RESISTANT.** Rigorously tested, delivers high levels of protection.
- **BLENDS INTO YOUR SPACE.** Highly functional 2-sided dry-erase surface, multiple color choices.
- **FLEXIBLE.** Sized to move easily and adapt quickly to your needs.
